Technical Skills

Languages: HTML, CSS, JavaScript, Python, Java, TypeScripts
Developer Tools: VS Code, Git/GitHub, R e p l i t, Postman, Figma, Spline, Excalidraw
Technologies/Frameworks: React JS, Next JS, Tailwind CSS, Firebase, Supabase, Appwrite, Node.js, Mongo DB, Express.js, Docker, Gsap, Cloudinary, Three JS, Vanta JS, BootStrap

Experience

Ardent Computech Pvt. Ltd.

Machines Learning(Internship)

- Machine Learning Experience: Worked hands-on with machine learning, training and testing models using Python, experimenting with different algorithms, and applying them to real-world data.
- Technical Skills: Improved my Python programming skills, learned how to clean and prepare data, optimize models, and use advanced machine learning techniques.
- Real-World Projects: Applied machine learning to solve real problems, gaining a deeper understanding of how to use data for making decisions and solving challenges.

HACKATHONS

Re-imagine (Sheriyans Coding School)

- Participated in a competitive hackathon focused on innovative problem-solving and product development.
- Collaborated with a team to ideate, develop, and present a working prototype of a project within a limited timeframe.
- Gained hands-on experience in coding, project management, and teamwork under tight deadlines.
- Demonstrated adaptability, communication, and leadership in a high-pressure environment.

Projects

Chatmate | React, Node.js, Express, JWT, MongoDB, Cloudinary, Tailwind-CSS (Group Project)

- A full-stack chatting application built with the MERN (MongoDB, Express, React, Node.js) stack. This app enables real-time messaging, group chats, active status indicators, and friend-based access to conversations.
- Developed a secure user authentication system with hashed passwords, implemented friend request functionality, and built real-time messaging features with active status, group chats, and message read receipts.
- Frontend Repository link
- Backend Repository link

File uploader | Next.js, Tailwind CSS, Express JS, MongoDB, Cloudinary, etc.

- Developed a file-Uploading system using the **MERN stack** and integrated **Cloudinary** for efficient file upload and storage management.
- Implemented secure file handling mechanisms to ensure safe data transfer and storage.
- Enabled features for users to upload, view, and share files seamlessly via a responsive and intuitive user interface.
- Utilized **MongoDB** for database management, **Express.js** and **Node.js** for backend functionality, and **React.js** for frontend development.
- Demonstrated skills in API integration, cloud-based storage solutions, and full-stack development.

Education

BINOD BIHARI MAHTO KOYLANCHAL UNIVERSITY	**2022-2025**
BCA (BACHELOR OF COMPUTER APPLICATION)	Dhanbad (Jharkhand)

Pursuing BCA and currently in 3rd year.

BOKARO STEEL CITY COLLEGE, BOKARO (Jharkhand)	**2020-2022**
INTERMEDIATE	BOKARO (Jharkhand)

Secured a degree with an impressive 1st division in science.

DAV KORIYA CHANDANKIYARI (Jharkhand)	**2019-2020**
AISSE	CHANDANKIYARI (Jharkhand)

Secured a degree with an impressive 1st division.
